# Capacitor Plugins mit UI benutzten

**main.ts** →

```
import { defineCustomElements } from '@ionic/pwa-elements/loader';

defineCustomElements(window);
```

**Verwendung**
**picture.service.ts** →

```
import { CameraResultType, Plugins } from '@capacitor/core';
const { Camera } = Plugins;

await Camera.getPhoto({
    quality: 90,
    allowEditing: true,
    resultType: CameraResultType.DataUrl,
  })
);
```
